OBJECTIVE

Enthusiastic, problem-solving Java Developer interested in entry-level junior development. Experience includes development of desktop, mobile, and web apps. Core skills in Java, Python, C#, VB.NET, SQL, JavaScript, HTML, CSS. Use the link below to view my GitHub profile.

EDUCATION

2018 - 2020

A.S Computer
Programming

Georgia Piedmont
Technical College

EXPERIENCE

2012 - 2020

Service Manager • Wells Fargo Bank N.A

Led a team of eight in customer facing interactions. Daily direct coaching / feedback provided to team around successes & opportunities. Required to meet strict deadlines around reporting and team member engagement activities. Team collaboration to succeed in compliance of internal documentation / security controls. Mentee of Project Management lead learning software, middleware, and hardware.

KEY SKILLS

Java Core Language
Service Architecture -
REST
Web Technologies -
Apache Tomcat
Web Frameworks -
HTML, CSS, React.JS

COMMUNICATION

Collaborated with Project Management lead on ARCA automated teller cash dispenser project. Traveled to bank branches for Go Live dates as subject matter expert communicating best practices, successes, and technical information to new users. Follow-up on site observations as well as keep in touch calls.

INTERESTS

I enjoy motorcycle road racing / MotoGP, video games, and building PC's when I have spare time.
